

Education Resource Pack

New Forest Tree House Study Centre

supported by

Working for England's World Class Region

Introduction

This resource has been designed to facilitate the engagement of pupils in the design and delivery of an innovative tree house project for the Countryside Education Trust.

This resource pack should be used by teachers who wish to take part in the scheme.

The pack contains the lesson plans which will be used on the pupil engagement day and support materials so that follow up lessons can be delivered when the pupils return to school.

All lesson plans included in this resource are mapped to the Primary National Strategy.

On the day information will be collected which the schools can use at a later date. Extension lesson plans for mathematics and literacy are included and will make reference to this data.

Pupil data on the day will be incorporated into a pupil led design brief which will be used by the architects to design the “New Forest Tree House Study Centre” for the Countryside education Trust.

Contents

Lesson Plan 1: Tree House Design – data handling and questionnaire design

Lesson Plan 2: A Question of Sustainability – use of finite resources, data handling and questionnaire design

Lesson Plan 3: Drawing Your Ideal Tree House

Lesson Plan 4: Painting Your Ideal Tree House

Extension Lessons

Lesson Plan 5: Mathematics Organising Your Tree House Data

Lesson Plan 6: Literacy (Write a story)
